R: Responsible to Mentees' Needs

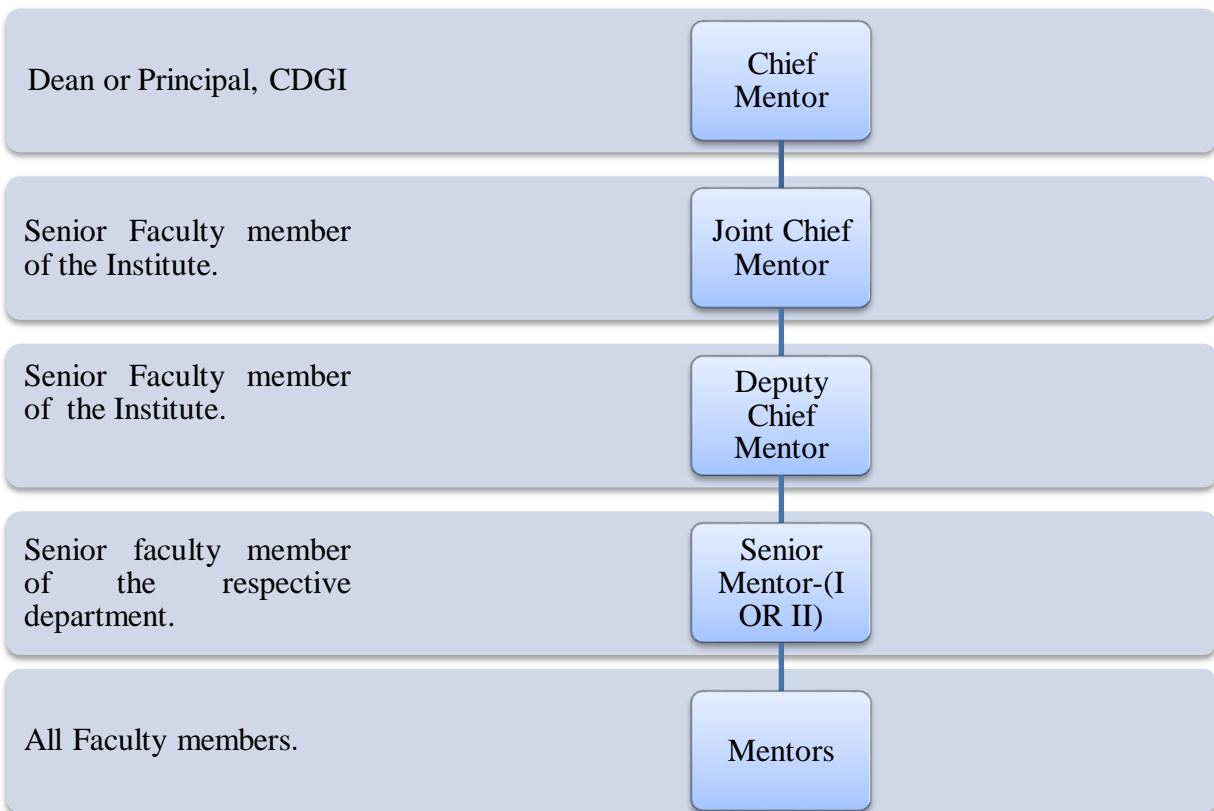

Mentoring is an art of grooming the Mentees. The Mentor devotes his/her whole hearted commitment in shaping up the Mentee's frame of mind to enable him to emerge stronger emotionally, academically and be a professional to face the world of competitions. Mentoring is crucial to clear up doubts and depressive state of mind of a student, ensure he is happy growing up in the professional field. It is an Art of psycho-social and professional counseling, clearing a student's doubts at the undergraduate level and make him/her stronger by each day. It builds up a friendly relationship, where asking questions does not remain a taboo or give rise to any form of inferiority complex. Mentoring takes shape through formal and informal interactions, structured and semi-structured sessions, to walk the learning path and emerge stronger with knowledge

base. A Mentor shows the Big Picture as well as the pictures of real life to let the Mentee understand and get a feeling of the real world. Mentors are advisors; people with career experience willing to share their knowledge as Mentors are supporters; people who give emotional and moral encouragement are Mentor-tutors, people who give specific feedback on one's performance are masters, as Mentors;
